Publishing Office

Pergamon Press Ltd, Pergamon House, Bampfylde Street, Exeter EX1 2AH, U.K. [*Tel.* Exeter (0392) 51558; *Fax* (0392) 425370].

Subscription and Advertising Offices

North America: Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A. Rest of the World: Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K. [*Tel.* Oxford (0865) 794141; *Fax* (0865) 60285].

Subscription Rates

Annual institutional subscription rate (1993): £560.00 (U.S.1064.00). Sterling prices are definitive. U.S. dollar prices are quoted for convenience only, and are subject to exchange rate fluctuation. Prices include postage and insurance and are subject to change without notice. *Journal of Insect Physiology* and the related publication *Insect Biochemistry and Molecular Biology* are available on a joint subscription of £891.00 (U.S.$1693.00) per annum, a saving of £99.00 (U.S.$188.00) on the separate subscription prices.

Back Issues

Back issues of all previously published volumes, in both hard copy and on microform are available direct from Pergamon Press offices.

Published monthly. Copyright © 1992 Pergamon Press Ltd

Second class postage paid at RAHWAY NJ. Postmaster send address corrections to *Journal of Insect Physiology*, Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

LIST OF CONTENTS

VOLUME 38

NUMBER 1

David H. Petzel and David W. Stanley-Samuelson	1	Inhibition of eicosanoid biosynthesis modulates basal fluid secretion in the Malpighian tubules of the yellow fever mosquito (*Aedes aegypti*)
P. G. Allingham, R. L. Kerlin, R. L. Tellam, S. J. Briscoe and H. A. Standfast	9	Passage of host immunoglobulin across the mid-gut epithelium into the haemolymph of blood-fed buffalo flies *Haematobia irritans exigua*
Ian Orchard, Angela B. Lange and Brenda B. Brown	19	Tyrosine hydroxylase-like immunoreactivity in the ventral nerve cord of the locust (*Locusta migratoria*), including neurones innervating the salivary glands
Jeffrey W. Harris and Joseph Woodring	29	Effects of stress, age, season, and source colony on levels of octopamine, dopamine and serotonin in the honey bee (*Apis mellifera* L.) brain
J. S. Ishay, T. Benshalom-Shimony, A. Ben-Shalom and N. Kristianpoller	37	Photovoltaic effects in the Oriental hornet, *Vespa orientalis*
Richard I. Woodruff, Axel Munz and William H. Telfer	49	Steady-state potentials in ovarian follicles of a moth, *Hyalophora cecropia*
Anthony J. Zera and Cami L. Holtmeier	61	*In vivo* and *in vitro* degradation of juvenile hormone-III in presumptive long-winged and short-winged *Gryllus rubens*
Emile Van Handel	75	Postvitellogenic metabolism of the mosquito (*Culex quinquefasciatus*) ovary

NUMBER 2

	iii	Editorial Announcement
A. Turberg and K.-D. Spindler	81	Properties of nuclear and cytosolic ecdysteroid receptors from an epithelial cell line from *Chironomus tentans*
W. A. Prosser and A. E. Douglas	93	A test of the hypotheses that nitrogen is upgraded and recycled in an aphid (*Acyrthosiphon pisum*) symbiosis
Marie-Claire Cammaerts	101	Anatomical origin and isolation of an ethological factor found on the last sternite of the workers of *Myrmica rubra* L. (*Formicidae, Myrmicinae*)
M. E. Colin, D. Richard, V. Fourcassie and L. P. Belzunces	111	Attraction of *Varroa jacobsoni*, parasite of *Apis mellifera* by electrical charges
Hisaaki Tsumuki, Haruyoshi Konno, Takanori Maeda and Yasuhiro Okamoto	119	An ice-nucleating active fungus isolated from the gut of the rice stem borer, *Chilo suppressalis* Walker (Lepidoptera: Pyralidae)

J. P. R. Ochieng'-Odero — 127 The effect of three constant temperatures on larval critical weight, latent feeding period, larval maximal weight and fecundity of *Cnephasia jactatana* (Walker) (Lepidoptera: Tortricidae)

Unn Gehrken and Timothy E. Southon — 131 Supercooling in a freeze-tolerant cranefly larva, *Tipula* sp.

Sue Nicolson — 139 Excretory function in *Tenebrio molitor*: fast tubular secretion in a vapour-absorbing insect

R. Bauerfeind and H. Komnick — 147 Lipid-loading and unloading of lipophorin in the midgut epithelium of dragonfly larvae (*Aeshna cyanea*). A biochemical and immunocytochemical study

NUMBER 3

Runlin Zhang Ma, William C. Black IV and John C. Reese — 161 Genome size and organization in an aphid (*Schizaphis graminum*)

Jeong Won Pak, Ki Wha Chung, Chung Choo Lee, Kyungjin Kim, Yong Namkoong and Jan Koolman — 167 Evidence for multiple forms of the prothoracicotropic hormone in *Drosophila melanogaster* and indication of a new function

Atsuko Moribayashi, Hiromu Kurahashi and Tetsuya Ohtaki — 177 Physiological differentiation of the ring glands in mature larvae of the flesh fly, *Boettcherisca peregrina*, programmed for diapause or non-diapause

Rudolf Bauerfeind and Hans Komnick — 185 Immunocytochemical localization of lipophorin in the fat body of dragonfly larvae (*Aeshna cyanea*)

Zhixiang Wang and Norbert H. Haunerland — 199 Fate of differentiated fat body tissues during metamorphosis of *Helicoverpa zea*

Josiane Girardie, Olivier Richard and Adrien Girardie — 215 Time-dependent variations in the activity of a novel ovary maturating neurohormone from the nervous corpora cardiaca during oögenesis in the locust, *Locusta migratoria migratorioides*

Tracey Chapman — 223 A cost of mating with males that do not transfer sperm in female *Drosophila melanogaster*

D. C. Paul, G. Subba Rao and D. C. Deb — 229 Impact of dietary moisture on nutritional indices and growth of *Bombyx mori* and concommitant larval duration

NUMBER 4

J. W. Wegener, E. Tareilus and H. Breer — 237 Characterization of calcium-dependent potassium channels in antennal receptor neurones of *Locusta migratoria*

M. S. J. Simmonds, W. M. Blaney and L. M. Schoonhoven — 249 Effects of larval diet and larval age on the responsiveness of taste neurones of *Spodoptera littoralis* to sucrose

Gerd Gäde — 259 Structure–activity relationships for the carbohydrate-mobilizing action of further bioanalogues of the adipokinetic hormone/red pigment-concentrating hormone family of peptides

P. Ibáñez, M. D. Garcerá, E. Alcácer, F. Conill and R. Martínez — 267 Characterization of vitellogenins in *Spilostethus pandurus* (Hemiptera): immunoelectrophoretic studies and short-term labelling experiments

G. W. Felton, K. K. Donato, R. M. Broadway and S. S. Duffey — 277 Impact of oxidized plant phenolics on the nutritional quality of dietary protein to a noctuid herbivore, *Spodoptera exigua*

Dieter Luffy and August Dorn — 287 Immunohistochemical demonstration in the stomatogastric nervous system and effects of putative neurotransmitters on the motility of the isolated midgut of the stick insect, *Carausius morosus*

W. A. Prosser, S. J. Simpson and A. E. Douglas — 301 How an aphid (*Acyrthosiphon pisum*) symbiosis responds to variation in dietary nitrogen

Gary J. Blomquist, T. S. Adams, Premjit P. Halarnkar, Peide Gu, Marilyn E. Mackay and Lisa A. Brown — 309 Ecdysteroid induction of sex pheromone biosynthesis in the housefly, *Musca domestica*—are other factors involved?

NUMBER 5

Andrew S. Pullin — 319 Diapause metabolism and changes in carbohydrates related to cryoprotection in *Pieris brassicae*

J. L. Hegarty, B. Zhang, M. C. Carroll, E. J. Cragoe Jr and K. W. Beyenbach — 329 Effects of amiloride on isolated Malpighian tubules of the yellow fever mosquito (*Aedes aegypti*)

N. Pascual, X. Cerdá, B. Benito, J. Tomás, M. D. Piulachs and X. Bellés — 339 Ovarian ecdysteroid levels and basal oöcyte development during maturation in the cockroach *Blattella germanica* (L.)

Klaus Richter — 349 Prothoracicotropic activity in the brain of the cockroach *Periplaneta americana*

Magdalena Hodkova — 357 Storage of the photoperiodic information within the implanted neuroendocrine complexes in females of the linden bug *Pyrrhocoris apterus* (L.) (Heteroptera)

Taisaku Amakawa, Kazuko Kawata and Mamiko Ozaki — 365 Nucleotide receptor-site on the labellar sugar receptor cell of the blowfly *Phormia regina*

In Sook Kim and Jeffrey H. Spring — 373 Excretion in the house cricket (*Acheta domesticus*): relative contribution of distal and mid-tubule to diuresis

Dale B. Gelman, Belgaum S. Thyagaraja, Thomas J. Kelly, Edward P. Masler, Robert A. Bell and Alexej B. Borkovec — 383 Prothoracicotropic hormone levels in brains of the European corn borer, *Ostrinia nubilalis*: diapause vs the non-diapause state

NUMBER 6

Andreas Dübendorfer and Bärbel Liebig — 397 Cell differentiation *in vitro* and establishment of permanent, ecdysone-responsive cell lines from embryonic tissues of the Colorado potato beetle, *Leptinotarsa decemlineata*

K. Crailsheim, L. H. W. Schneider, N. Hrassnigg, G. Bühlmann, U. Brosch, R. Gmeinbauer and B. Schöffmann — 409 Pollen consumption and utilization in worker honeybees (*Apis mellifera carnica*): dependence on individual age and function

S. C. Coulson and J. S. Bale — 421 Effect of rapid cold hardening on reproduction and survival of offspring in the housefly *Musca domestica*

E. Deimel and K. Kral — 425 Long-term sensitivity adjustment of the compound eyes of the housefly *Musca domestica* during early adult life

A. Leyssens, P. Steels, E. Lohrmann, R. Weltens and E. Van Kerkhove — 431 Intrinsic regulation of K^+ transport in Malpighian tubules (*Formica*): electrophysiological evidence

Hideharu Numata — 447 Temporal variation in the photoperiodic induction and termination of adult diapause in the bean bug, *Riptortus clavatus*

N. Matteson, I. Terry, A. Ascoli-Christensen and C. Gilbert — 453 Spectral efficiency of the western flower thrips, *Frankliniella occidentalis*

Shivanand Hiremath and Davy Jones — 461 Juvenile hormone regulation of vitellogenin in the gypsy moth, *Lymantria dispar*: suppression of vitellogenin mRNA in the fat body

NUMBER 7

C. H. F. Rowell and S. J. Simpson — 475 A peripheral input of thoracic origin inhibits chewing movements in the larvae of *Manduca sexta*

Jomara Alves Cangussu and Fernando Sergio Zucoloto — 485 Nutritional value and selection of different diets by adult *Ceratitis capitata* flies (Diptera, Tephritidae)

E. Hawkins and M. J. O'Donnell — 493 Oöplasmic pH and electrical properties of developing locust (*Locusta migratoria*) eggs

Seppo Turunen — 503 Efficient use of dietary galactose in *Pieris brassicae*

Hiroshi Washio and Yoshitaka Tanaka — 511 Some effects of octopamine, proctolin and serotonin on dorsal unpaired median neurones of cockroach (*Periplaneta americana*) thoracic ganglia

Unn Gehrken — 519 Inoculative freezing and thermal hysteresis in the adult beetles *Ips acuminatus* and *Rhagium inquisitor*

Jirair K. Bedoyan, C. S. Patil, Themistoklis R. Kyriakides and Kemet D. Spence — 525 Effect of excess dietary glucose on growth and immune response of *Manduca sexta*

Andreas Wiesner — 533 Characteristics of inert beads provoking humoral immune responses in *Galleria mellonella* larvae

Armin Wessing, Karl Zierold and Frank Hevert — 543 Two types of concretions in *Drosophila* Malpighian tubules as revealed by X-ray microanalysis: a study on urine formation

NUMBER 8

M. D. Piulachs and F. Couillaud — 555 Differential stimulation of juvenile hormone III biosynthesis induced by mevalonate and mevalonolactone in *Blattella germanica* (L.)

N. A. Babilis and B. E. Mazomenos — 561 Pheromone production in *Sesamia nonagrioides*: diel periodicity and effect of age and mating

A. E. Douglas and W. A. Prosser — 565 Synthesis of the essential amino acid tryptophan in the pea aphid (*Acyrthosiphon pisum*) symbiosis

J. Claret and N. Volkoff — 569 Vitamin A is essential for two processes involved in the photoperiodic reaction in *Pieris brassicae*

H. Duve, A. Thorpe, K. J. Yagi, C. G. Yu and S. S. Tobe — 575 Factors affecting the biosynthesis and release of juvenile hormone bisepoxide in the adult blowfly *Calliphora vomitoria*

Shi-Hong Gu, Yoshimitsu Iwashita, Fei-Jann Lin and Yien-Shing Chow — 587 Fluctuations in ecdysteroid titre and development during the early stage of the last larval instar of trimoulter strains of the silkworm, *Bombyx mori*

Lee O. Lomas and W. Reuben Kaufman — 595 The influence of a factor from the male genital tract on salivary gland degeneration in the female ixodid tick, *Amblyomma hebraeum*

George D. Yocum and David L. Denlinger — 603 Prolonged thermotolerance in the flesh fly, *Sarcophaga crassipalpis*, does not require continuous expression or persistence of the 72 kDa heat-shock protein

Peter C. Andersen, Brent V. Brodbeck and Russell F. Mizell III — 611 Feeding by the leafhopper, *Homalodisca coagulata*, in relation to xylem fluid chemistry and tension

Armin Wessing and Karl Zierold — 623 Metal-salt feeding causes alterations in concretions in *Drosophila* larval Malpighian tubules as revealed by X-ray microanalysis

B. Tran and J. Huignard — 633 Interactions between photoperiod and food affect the termination of reproductive diapause in *Bruchus rufimanus* (Boh.), (Coleoptera, Bruchidae)

NUMBER 9

Elysse M. Craddock and Christine R. B. Boake — 643 Onset of vitellogenesis in female *Drosophila silvestris* is accelerated in the presence of sexually mature males

Adrien Fónagy, Liliane Schoofs, Shogo Matsumoto, Arnold De Loof and Takashi Mitsui — 651 Functional cross-reactivities of some locustamyotropins and *Bombyx* pheromone biosynthesis activating neuropeptide

M. A. Khan and J. E. Steele — 659 Enhancement of hypertrehalosemic hormone biosynthesis by trehalose in isolated cockroach (*Periplaneta americana*) corpora cardiaca *in vitro*

Tadashi Gomi and Makio Takeda — 665 A quantitative photoperiodic response terminates summer diapause in the tailed zygaenid moth, *Elcysma westwoodii*

Marianne Schnuch and Kai Hansen — 671 Responses of a fly's salt receptor to lactose and to dilute NaCl solutions

Yuji Kimura and Sinzo Masaki — 681 Effect of light period on dark-time measurement for diapause induction in *Mamestra brassicae*

Tetsuo Harada — 687 The oviposition process in two direct breeding generations in a water strider, *Aquarius paludum* (Fabricius)

Michael Friedländer and Stuart E. Reynolds — 693 Intratesticular ecdysteroid titres and the arrest of sperm production during pupal diapause in the tobacco hornworm, *Manduca sexta*

KENTARO OKADA, AKIHIKO WATANABE, MASATAKA MORI, KAZUKO SHIMAZAKI, TATSUJI CHUMAN, FUMIAKI MOCHIZUKI and TATSUAKI SHIBUYA — 705 Olfactory responses to the sex pheromone component and its behavioural inhibitor in the male cigarette beetle, *Lasioderma serricorne*

E. S. RATNA, G. COTTON and A. R. MCCAFFERY — 711 Effects of fenoxycarb, nerve-section and farnesoic acid on corpus allatum activity in adult female *Periplaneta americana*

V. A. ZASLAVSKI — 717 Light-break experiments with emphasis on the quantitative perception of nightlength in the aphid *Megoura viciae*

NUMBER 10

EDGAR M. SCHNEBEL and JOSEPH GROSSFIELD* — 727 Temperature effects on pupation-height response in four *Drosophila* species group triads

CHIH-MING YIN, MEI-FANG LI, BAI-XIANG ZOU, J. MARSHALL CLARK and JOHN G. STOFFOLANO JR — 733 Effect of cobalt and other divalent cations on oöcyte development of the black blowfly, *Phormia regina* (Meigen)

LAUREN SCHROEDER and JOAN LAWSON — 743 Temperature effects on the growth and dry matter budgets of *Malacosoma americanum*

PATRICK CALLAERTS, JAN GEUNS and ARNOLD DE LOOF — 751 Polyamine changes during early development of *Drosophila melanogaster*

M. F. BOWEN — 759 Terpene-sensitive receptors in female *Culex pipiens* mosquitoes: electrophysiology and behaviour

TAKEMA FUKATSU and HAJIME ISHIKAWA — 765 A novel eukaryotic extracellular symbiont in an aphid, *Astegopteryx styraci* (Homoptera, Aphididae, Hormaphidinae)

JOSEPH WOODRING and DANIEL J. LEPRINCE — 775 The function of corpus cardiacum peptides in horse flies

K. SLÁMA and M.-S. COQUILLAUD — 783 Homeostatic control of respiratory metabolism in beetles

MAKOTO HATAKOSHI — 793 An inhibitory mechanism over oviposition in the tobacco cutworm, *Spodoptera litura* by juvenile hormone analogue pyriproxyfen

P. LANKINEN and A. J. RIIHIMAA — 803 Weak circadian eclosion rhythmicity in *Chymomyza costata* (Diptera: Drosophilidae), and its independence of diapause type

ELISABETH HANSEN-DEI.KESKAMP — 813 Functional characterization of antennal contact chemoreceptors in the cockroach, *Periplaneta americana*. An electrophysiological investigation

NUMBER 11

T. L. PANNABECKER, F. ANDREWS and K. W. BEYENBACH — 823 A quantitative analysis of the osmolytes in the hemolymph of the larval gypsy moth, *Lymantria dispar*

W. H. O. ERNST — 831 Nutritional aspects in the development of *Bruchidius sahlbergi* (Coleoptera: Bruchidae) in seeds of *Acacia erioloba*

JOHN G. STOFFOLANO JR, MEI-FANG LI, BAI-XIANG ZOU and CHIH-MING YIN — 839 Vitellogenin uptake, not synthesis, is dependent on juvenile hormone in adults of *Phormia regina* (Meigen)

SHOGO MATSUMOTO, OKITSUGU YAMASHITA, ADRIEN FONAGY, MASAAKI KURIHARA, KYOICHI UCHIUMI, TOSHIHIRO NAGAMINE and TAKASHI MITSUI — 847 Functional diversity of a pheromonotropic neuropeptide: induction of cuticular melanization and embryonic diapause in lepidopteran insects by *Pseudaletia* pheromonotropin

SHEPPY COODIN and STANLEY CAVENEY — 853 Lipophorin inhibits the adhesion of cockroach (*Periplaneta americana*) haemocytes *in vitro*

JAY A. YODER and ANDREW SPIELMAN — 863 Differential capacity of larval deer ticks (*Ixodes dammini*) to imbibe water from subsaturated air

M. T. KIMURA, T. AWASAKI, T. OHTSU and K. SHIMADA — 871 Seasonal changes in glycogen and trehalose content in relation to winter survival of four temperate species of *Drosophila*

J. IVANOVIĆ, M. JANKOVIĆ-HLADNI, S. DJORDJEVIĆ, S. STAMENOVIĆ and J. LAZAREVIĆ — 877 The effect of high temperature on metabolism of *Morimus funereus* larvae during an intermoult period

ANN-BRITT WASSGREN, OLLE ANDERBRANT, JAN LÖFQVIST, BILL S. HANSSON, GUNNAR BERGSTRÖM, ERIK HEDENSTRÖM and HANS-ERIK HÖGBERG — 885 Pheromone related compounds in pupal and adult female pine sawflies, *Neodiprion sertifer*, of different age and in different parts of the body

CLAUDIO R. LAZZARI — 895 Circadian organization of locomotion activity in the haematophagous bug *Triatoma infestans*

DANICA BAINES, TERESA DESANTIS and ROGER G. H. DOWNER — 905 Octopamine and 5-hydroxytryptamine enhance the phagocytic and nodule formation activities of cockroach (*Periplaneta americana*) haemocytes

SHINYA YOKOO, SUMIO TOJO and NOBUYOSHI ISHIBASHI — 915 Suppression of the prophenoloxidase cascade in the larval haemolymph of the turnip moth, *Agrotis segetum* by an entomopathogenic nematode, *Steinernema carpocapsae* and its symbiotic bacterium

BELGAUM S. THYAGARAJA, THOMAS J. KELLY, EDWARD P. MASLER, DALE B. GELMAN, ROBERT A. BELL and RICHARD B. IMBERSKI — 925 Kopec revisited—neuroendocrine regulation of metamorphosis in the gypsy moth (*Lymantria dispar*): development of a larval *in vivo* assay for prothoracicotropic hormone

NUMBER 12

iii Announcement

Review
MICHAEL F. LAND — 939 Visual tracking and pursuit: humans and arthropods compared

KEIKICHI UCHIDA, DAIJIRO OHMORI, FUMIYUKI YAMAKURA and KATSUHIKO SUZUKI — 953 Mosquito (*Culex pipiens pallens*) egg development induced by infusion of amino acids into the hemocoel

K. MURUGAN and ANCY GEORGE — 961 Feeding and nutritional influence on growth and reproduction of *Daphnis nerii* (Linn.) (Lepidoptera: Sphingidae)

I. WARBURG and R. GALUN — 969 Ingestion of sucrose solutions by the Mediterranean fruit fly *Ceratitis capitata* (Wiedl)

Raymond V. Barbehenn and Michael M. Martin	973	The protective role of the peritrophic membrane in the tannin-tolerant larvae of *Orgyia leucostigma* (Lepidoptera)
H. W. Honegger, Birgit Seibel, Ulrike Kaltenhauser and P. Bräunig	981	Expression of bursicon-like activity during embryogenesis of the locust *Schistocerca gregaria*
Zicai Liang, Peter Lindblad, Anne Beauvais, Mats W. Johansson, Jean-Paul Latgé, Martin Hall, Lage Cerenius and Kenneth Söderhäll	987	Crayfish α-macroglobulin and 76 kDa protein; their biosynthesis and subcellular localization of the 76 kDa protein
Christos Consoulas and George Theophilidis	997	Anatomy, innervation and motor control of the abdominal dorsal muscles of *Decticus albifrons* (Orthoptera)
Giovanni Facciponte and Angela B. Lange	1011	Characterization of a novel central pattern generator located in the VIIth abdominal ganglion of *Locusta*
S.-X. Yi, L. Tirry and D. Degheele	1023	Presence of myotropins in larval midgut extracts of lepidopteran insects: *Manduca sexta*, *Agrotis segetum* and *Spodoptera exempta*
Takema Fukatsu and Hajime Ishikawa	1033	Soldier and male of an eusocial aphid *Colophina arma* lack endosymbiont: implications for physiological and evolutionary interaction between host and symbiont
Shi-Hong Gu, Ru-Shiow Tsai, Yien-Shing Chow and Fei-Jann Lin	1043	Sexual dimorphism in developmental rate and ecdysteroid titre in *Orgyia postica*
